The employees in all the departments in the company are dedicated to achieve the goals of customer satisfaction. Dedication to quality in everything we do is our belief & the cornerstone upon which a sound business is built. The quality policy is defined with the objective to achieve customer satisfaction.

- The quality policy of the company never compromises with the quality of the services that company is heading with.
- Will focus on each and every pros and cons of the product/ material customer demand.
- This policy statement underlines the commitment of the Management and work-force towards achieving Quality in all areas resulting in total and consistent customer satisfaction, leadership in all areas of Business either Trading or Contracting and continually improving the effectiveness of the Quality Management System.
- The Company is committed to upgrade and augment, technology, facilities and product performance to meet changing market scenario.

Not only our QA Team but our all the staffs of **Dilij Contracting**. always efforts to achieve quality assurance and performance standards set out in the procedures. Management accepts the responsibility for ensuring that the staffs are trained and capable of meeting those standards.

# SAFETY POLICY

The safety of our employees, and the public, is of the highest priority. It is our policy that our safety rules shall be strictly observed at all times.

Although these rules are to be considered very important, it is impossible to publish a rule that covers every circumstance. If a rule that might cover a specific hazardous condition has been omitted, that shall not be an excuse for disregard of common sense in the safe performance of our work. Maintaining excellence in the safety of the work being done is a primary requirement not only for well-being of the personnel engaged in construction work but also for the benefits that accrue through higher moral and the expedition of the construction time of a project. It is for this reason, a safety program is formulated. Accident prevention shall be considered of primary importance in all phases of operations and administration. The management has put forward some safety policies. The policy insists to maintain open communication between management and staff on matters pertaining to safety. Safety and accident prevention is everyone's responsibility.

- Promote a positive attitude towards accident prevention.
- Outlining the training and competence required to prevent occupational hazards.
- Establish and insist upon safe work practices and conditions
- Following safe work practices, preventing injury and ill health, and continually improving the effectiveness of system.
- Provide appropriate supervision, training, and monitor conformance to quality standards
- Ensure employees understand and accept their responsibility to promote a safe and healthy work place
- Ensure that contractors working on our premises have, and follow, appropriate safety procedures.

# HEALTH AND ENVIRONMENTAL POLICY

**Dilij Contracting** Environmental and waste management services, Industrial cleaning, solid waste management and landfill operations. It means we can provide the most environmentally sound and affordable waste solutions. We are fully committed to trade plastics recycled products. Specialty chemicals have a huge role in global economy. Not even a single industry can exist without the use of specialty chemical. In virtually every process of step followed in any industry the use of specialty chemical can be found.

Some major areas apart from agriculture, where specialty chemical is used are construction & pipes, electronic materials, ink and graphics, fabric care, packaging, paint and coating, paper and board, personal care, photo and digital imaging, plastics and rubber, textile and fibers, water treatment and in automotive areas.

## **Services we provide:**

- Operations and maintenance of land treatment units
- Operations and maintenance of inert waste facilities
- Waste collection services
- Operations and maintenance of drum washing and crushing equipment
- Operations and maintenance of chemical waste temporary storage facilities
- Sludge drying and its final disposal, land filling of waste salt as well as inert wastes
- Operations and maintenance of domestic waste facilities.

# CLIENTS

**Dilij Contracting** believes in establishing long-term, strategic relationships with fewer clients as opposed to short-term, opportunity-based relationships with many. In our constant endeavor to deliver superior value, right from our visual inspection down to each of our engagements, our focus remains on translating our clients' QA vision into solid, measurable value. As a result we hold ourselves accountable for delivering quality results, all the way from the top down to each member of an engagement. We are also willing and interested in making mutual investments in key areas for our clients in order to deliver win-win outcomes for everyone.

One of our major differentiators remains our ability and commitment to develop and sustain strong relationships at senior levels with our clients. The cornerstone of our partnership approach lies in our belief that in order for any partnership to succeed, both partners have to value and respect each other as equals.

**Dilij Contracting** greatly values the relationships that it has established with several customers in Saudi Arabia and is delighted to meet the technical needs of the client. We are pleased to display here the names of a few of our clients.
